Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution. I want my credit card application to be approved quickly.

SAYS 1. I want my credit card application to be approved quickly. 2. I want a fair approval process. 3. I want to know the reason if my application is rejected.		THINKS 1. Will my application be approved? 2. Does my income and credit history qualify me? 3. Is my personal information secure?
	Student Team College Students	
DOES 1. Submits income and personal details. 2. Uploads required documents. 3. Checks application status daily.		FEELS 1. Hopeful about getting approval. 2. Nervous about rejection. 3. Satisfied if the process is fast and transparent.
